

Introduction:

1. Long press the boot button, boot after the machine will have two minutes self-check, self-check after the completion of access to the main interface.
- 2 Start interface display : electricity display, carbon dioxide, TVOC, HCHO, temperature and humidity display.
3. BOOT into the main screen, the machine constantly monitor the current environment of air quality, showing "GOOD" for the current air quality is very good, showing "OK" for the current air quality in the normal range, shows "POOR" as exceeding normal air quality.
4. When the air quality is "OK" , the machine will send out BB, BB twice to remind you of the current air quality, when the air quality is "POOR" , the machine will send out BBB, BBB twice to remind you that the current air quality is out of the normal range.
5. According to customer demand, the machine can display degrees Celsius and Fahrenheit, short press the start button, can switch degrees Celsius and Fahrenheit display.

Maintenance

To store

You may leave the unit on display, or you can store it in its box or a cool, dry place.

To clean

Wipe off dust with a damp cloth, never use liquids or abrasive cleaner to clean, Modifications not authorized by the manufacturer may void users authority to operate this device.

Warranty & Customer Support

**User Manual
Air Quality Monitor**

Introduction

Thank you for purchasing the Air Quality Monitor, Please read this user manual, carefully and keep it in a safe for future reference. If you need any assistance, Please contact our support team and provide your product model.

This product is the auxiliary product of Air Quality Monitoring, let you know the air quality under the current environment, the healthy air environment is very important to our life, this product allows you to know the current air environment temperature and humidity, carbon dioxide, volatile organic compounds and Formaldehyde content, for your health escort.

Package Contents

- 1x Air Quality Monitor 1x
- USB Charging Cable 1x
- User Manual

Product diagram

Description

- ① Long press Power on/Power off
Short press switch degrees Celsius and Fahrenheit
Long press the start button for 5s, hear the second "beep" sound.
This means that the machine data has been restored to its original state,
- ② Test data display area
- ③ Type-c charging interface

Specifications

Products	Air quality monitor
Battery	1200mA
Input	5V _1000mA
Dimensions	100mm*69mm*35mm
Weight	136g

Display instructions:

Battery display icon
CO₂ data monitoring
A): GOOD-----The air quality is excellent. B):OK----- Air CO₂ is in the normal range.
C):POOR----- The current level of CO₂ in the air is very high.

TVOC data monitoring
A): GOOD ----- The air quality is excellent. B):Air TVOC is in the normal range.
C):POOR----- The current level of TVOC in the air is very high.

HCHO data monitoring
A):GOOD -----The air quality is excellent. B):Air HCHO is in the normal range.
C):POOR ----- The current level of HCHO in the air is very high.

Air temperature and humidity data monitoring
A) :Air temperature data monitoring
B) :Air Humidity Monitoring

Reference Table For gas quality:

Air Quality Status	CO2	TVOC	HCHO
Excellent air quality	≤600ppm	≤0.6 mg/m ³	≤0.08 mg/m ³
Good air quality	> 600ppm; ≤1000ppm	> 0.6 mg/m ³ ; ≤1.6 mg/m ³	> 0.08 mg/m ³ ; ≤0.12 mg/m ³
Poor air quality	> 1000ppm	> 1.6 mg/m ³	> 0.12 mg/m ³

(Warm tip: the first time to use, please press the boot button long, until you hear two "beep" sound, will display data clear zero)
